DETAILED ACTION

Claim Objections

Claim 11, is actually written as "Claim 111", correction is requested.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 9-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The limitation in claim 1 of, "A modified radial motion (MRM) method for modifying lengthwise curvature of face-milling spiral bevel and hypoid gears capable of modifying lengthwise curvature of face-milling spiral bevel and hypoid gears.." is unclear. Is there some structure that provides the capability of modifying the lengthwise curvature? What is performing this capability? Are there two sets of gears? Does the first set of gears then modify the lengthwise curvature of the second set of gears? It is also noted that something that is "capable" does not have to actually happen, therefore the limitation is not clearly recited.

Allowable Subject Matter

Claims 9-11 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
